

General Questions: Which other universities in India have similar research repositories?

The world-wide development and use of institutional repositories has grown significantly in the last few years. At the time of writing, there were around 2,000 institutional repositories world-wide, of which over 54 are located in India. All of the IITs and IIMs have established institutional repositories.

For an up-to-date listing of global repositories visit [OpenDOAR](#).
